In Re: Patent Term Extension  
Application for  
U.S. Patent No. 5,510,106

## NOTICE OF FINAL DETERMINATION

A determination has been made that U.S. Patent No. 5,510,106, which claims the veterinary biologic product FEL-O-FAX LvK/FIV vaccine, is eligible for patent term extension under 35 U.S.C. § 156. The period of extension has been determined to be 1,348 days.

A single request for reconsideration of this final determination as to the length of extension of the term of the patent may be made if filed within one month of the date of this notice. Extensions of time under 37 CFR § 1.136(a) are not applicable to this time period. In the absence of such request for reconsideration, the Director will issue a certificate of extension, under seal, for a period of 1,348 days.

The period of extension has been calculated using the United States Department of Agriculture's determination of the length of the regulatory review period published in the Federal Register of September 17, 2007 (72 Fed. Reg. 52847). Under 35 U.S.C. § 156(c):

$$\begin{aligned}\text{Period of Extension} &= \frac{1}{2} (\text{Testing Phase}) + \text{Approval Phase} \\ &= \frac{1}{2} (0) + 1,348 \text{ days} \\ &= 1,348 \text{ days (3.7 years)}\end{aligned}$$

Since the regulatory review period began October 15, 1999, after the patent issued (April 23, 1996), the entire regulatory review period has been considered in the above determination of the length of the extension period 35 U.S.C. § 156(c). No determination of a lack of due diligence under 35 U.S.C. § 156(c)(1) was made.

Neither the limitations of 35 U.S.C. § 156(g)(6) nor 35 U.S.C. § 156(c)(3) operate to reduce the period of extension determined above.

Upon issuance of the certificate of extension, the following information will be published in the Official Gazette:

U.S. Patent No.:	5,510,106
Granted:	April 23, 1996

Original Expiration Date<sup>1</sup>: January 4, 2011

Applicant: Janet K. Yamamoto et al.

Owner of Record: The Regents of the University of California

Title: Methods and Compositions for Vaccinating Against  
Feline Immunodeficiency Virus

Product Trade Name: FEL-O-FAX LvK/FIV vaccine

Term Extended: 1,348 days

Expiration Date of Extension: September 13, 2014

Any correspondence with respect to this matter should be addressed as follows:
